Details

Description

Engine and pump are installed on anti-vibration mounts in a sturdy, easily transported tubular steel frame for reliable protection against damage. Frame is powder coated to protect it against corrosion and has accessory holders to accommodate the standard accessories. Two large diametered air tyred wheels and a castor with a brake ensure convenient mobility and easy transportation.

Durable, fully enclosed three-piston axial pump with swashplate drive ensures outstanding efficiency and an extra long wear life.

Safety features like the oil deficiency protection, safety valves, water deficiency protection and the fuel deficiency protection ensure the constant availability of the unit during the tough daily use. The integrated fuel tank can be filled easily and enables long operating times. Detergents can be added to the high-pressure stream with an infinitely variable valve.

Application

Mobile unit which operates independent of electricity

For building contractors

For farmers and the forestry industry

For and local governments

Features & Benefits

For the toughest jobs.

Sturdy tubular steel frame protects all components.

Crane attachment point for use in the hire business, construction, agriculture and forestry.

Maximum independence

Efficient four-stroke petrol or ☐ diesel engine with reversing starter.

The right engine for the right job.

Suitable for stand-alone use, independent of electrical supply.
